EDUCATION

Indian Institue of information Technology Manipur
Computer Science And Engineering GPA: 7.15/10.00

Imphal, Manipur
Sep 2021 – Jun 2025

TECHINICAL SKILLS AND INTRESTS

Languages: JavaScript, TypeScript, HTML5 , CSS, Python, Java, C++

Frameworks: ReduxToolKit, React Context, Tailwind CSS, Bootstrap, Material UI, Shaden UI, Framer Motion, FireBase, Django REST API, SpringBoot

Libraries: Next.js, React.js, Node.js,

DataBases: MongoDB, MySql, PostgreSQL

ORM: Mongoose, Prisma, Django ORM

Coursework: Data Structures & Algorithms, Object Oriented Programming, Database Managements System, Software Engineering.

EXPERIENCE

Modgenics Technologies

Remote

SoftWare Developer Intern

Oct 2024 – Nov 2024,

- Designed and implemented reusable form components using Formik and Yup for streamlined form handling and validation across multiple features, reducing development time and ensuring consistency.
- Seamlessly integrated RESTful APIs to enable dynamic data fetching and real-time updates, ensuring robust and efficient application functionality.

Health Mudhra

Remote

Full Stack Developer Intern

july 2024 – Oct 2024

- Created a dynamic and responsive Material-UI table for efficient doctor and patient management, incorporating features like sorting, filtering, and pagination for streamlined functionality.
- Improved the landing page design by leveraging Accentricity UI for modern styling and Framer Motion for engaging animations, resulting in a visually appealing and interactive user experience.

PROJECTS

Real Estate Application | [GitHub](#)

- * Implemented property listing features with advanced filters for sale, rent, and offers.
- * Integrated a backend API with Node.js and Express.js to handle data securely.
- * Firebase google oAUTH used for authentication.

Prompt Social App | [GitHub](#)

- * Dynamic Prompt Management: Easily create, edit, and delete prompts with a seamless user experience.
- * Google Authentication: Secure and convenient login with Google OAuth integration.
- * Real-Time Updates: Effortlessly update and manage prompts with real-time feedback.

School Management System

- * The School Management System supports four distinct user roles: Admin, Teacher, Parent, and Student. Each role has specific permissions tailored to their functionalities.
- * Utilizing Prisma ORM with PostgreSQL, the system implements relational cross-mapping between users and entities such as classes, assignments, attendance, and grades.

AWARDS & ACHIEVEMENTS

LeetCode: Successfully solved over 150+ Data Structures and Algorithms problems, demonstrating strong analytical and problem-solving skills.

CodeForces: Completed over 100+ coding challenges, showcasing proficiency in various programming paradigms and algorithms.
