EDUCATION

Indian Institue of information Technology Manipur
Computer Science And Engineering GPA: 7.22/10.00

Imphal, Manipur
Sep 2021 – April 2025

TECHINICAL SKILLS AND INTRESTS

Languages: JavaScript, TypeScript, HTML5 , CSS, Python, Java, C++

Frameworks: ReduxToolKit, React Context, Tailwind CSS, Material UI, Shadcn UI, Framer Motion,

Libraries: Next.js, React.js, Node.js,

DataBases: MongoDB, MySql, PostgreSQL

ORM: Mongoose, Prisma, Sequelize

AI Tools: SST, TTS, AI Voice Agents.

EXPERIENCE

Repaio

Full Stack AI Developer

Bangalore

june 2025 – present

- Developed and deployed robust multilingual Voice AI agents for debt collection campaigns, integrating telephony providers such as Exotel, Plivo, Twilio, and TATA services with multiple STT engines, LLMs, and TTS systems to automate large-scale customer interactions and AI-driven dispositions.
- Built and enhanced debt collection CRM and workflow automation systems, including multi-account WhatsApp automation, agent recovery workflows, task management, and scalable operational architecture to improve efficiency, support multilingual campaigns, and streamline daily collection processes.

IF Med Tech

Full Stack Intern

Navi Mumbai

Jan 2024 – March 2024,

- Designed and implemented a health care saas platform for a client to dizitalize their offline bussiness.
- Seamlessly integrated RESTful APIs to enable dynamic data fetching and real-time updates, ensuring robust and efficient application functionality.

PROJECTS

Learning Management System | [GitHub](#)

- * Developed a Learning Management System supporting two primary user roles: Instructor and Student, each with tailored functionalities for managing and engaging with educational content.
- * Implemented using Mongoose with MongoDB to model and manage data, including course materials, assignments, and real-time progress tracking for individual student performance.

Prompt Social App | [GitHub](#)

- * **Role-Based Project Management System:** Implemented distinct user roles—*Admin*, *Manager*, and *User*—each with tailored permissions and functionalities.
- * **Trello-Style Task Board:** Integrated drag-and-drop feature for managing tasks across *To Do*, *In Progress*, and *Done* columns, ensuring visual task tracking and workflow organization.
- * **Daily Stand-Up Meeting Scheduler:** Developed a feature for scheduling and posting daily updates at 9 AM to promote team accountability and progress tracking.

Real Estate Application | [GitHub](#)

- * Implemented property listing features with advanced filters for sale, rent, and offers.
- * Integrated a backend API with Node.js and Express.js to handle data securely.
- * Firebase google oAUTH used for authentication.

AWARDS & ACHIEVEMENTS

LeetCode: Successfully solved over 150+ Data Structures and Algorithms problems, demonstrating strong analytical and problem-solving skills.

CodeForces: Completed over 100+ coding challenges, showcasing proficiency in various programming paradigms and algorithms.
